Tomofat Functional red
palm oil

SOMETIMES WE'RE TESTED
NOT TO SHOW OUR WEAKNESSES,
BUT TO DISCOVER OUR
STRENGTHS.

Director's Message

Welcome to our newsletter, the first of this year, which we hope will keep you updated on the latest news and share with you the latest developments in Sunzen Group. To those celebrating, Happy Chinese New Year! From all of us at Sunzen, we wish you lots of love, blessings and peace on this joyous occasion.

Sunzen Biotech Berhad is a biotechnology company that is primarily involved in animal health and nutrition, human health supplement products, and the palm oil trading business. This year, we are expanding our animal health business, launching new products and solutions that are catered for animal nutrition and farm hygiene. Following encouraging results from our trials runs on Tomofat nutrition, Sunzen is ready to produce on a commercial scale and test the export market as well. Hopefully, as the sales of new products build up, we can soon see the company become profitable again.

We shall keep you updated with our company's progress in the months to come with newsletters such as these. As for now, we hope that you enjoy the festive season with your loved ones, and we thank you for your support towards us all these years.

Happy holidays and safe travels from all of us at Sunzen!

VIV/VICTAM 2020 Bangkok

Sunzen Biotech Berhad is participating in VIV/Victam 2020!

VIV, one of the leading business network linking professionals from Feed to Food, and Victam, the world largest feed and grain event, join forces for a 3-day international trade show at BITEC, Bangkok.

The event **Victam and Animal Health and Nutrition Asia**, with 400 exhibitors and targeted audience of 9,000 professional visitors will open its door on 24-26 March 2020. It is a unique platform providing total solutions from feed production, feed technology & processing, to feed ingredients, feed additives, animal health and pharmaceuticals in animal protein production.

Sunzen Group, with our new development of **Tomofat Functional Red Palm Oil** range of products, will benefit from the highly qualified and most complete network, to access to the world's fastest growing market, Asia through the platform.

Ruby of Malaysia - Tomofat Functional Red Palm Oil

Tomofat Functional Red Palm Oil is a new range of fat powder products developed and produced by Sunzen Feedtech Sdn Bhd by Super Freezing Crystallisation process.

Tomofat Functional Red Palm Oil products not only retain Red Palm oil natural phytonutrients, the products are formulated for:

- 1) High Performancene lysophospholipids - enable full digestion of fat and nutrients absorption.
- 2) Medium chain triglycerides (MCTs) - Enhanced Immunity and better growth performance.

Studies shown that Palm Oil supplemented in sow lactation feed achieving higher average daily energy intake, better sow BW change and litter gain. Benefits of Red Palm Oil include better pigmentation in egg yolk, skin and shank color, better meat quality, etc.
